

# Fabricated Display Shapes

## Molded Polystyrene Insulation.

Branch River molded polystyrene insulation includes an ingredient you won't find in other molded polystyrene products. Control. Branch River insulation gives you control over the design of your project. You determine the shape and specs of the molded polystyrene components you need, then your Branch River, Inc. supplier works with you to deliver them on time and within budget.

Molded polystyrene is an amazingly strong and versatile material. Consisting of over 95% air, Branch River insulation is available in a range of Types to provide the properties needed for your design. Branch River insulation is compatible with a variety of coatings and treatments to create extraordinary visual effects.

Branch River insulation shapes are custom fabricated by hot wire cutting with computer aided design, and if necessary, assembled together to provide a solution specific to your needs.

Branch River insulation means that you can achieve product designs that wouldn't be possible with other materials.

## FOAM FACTS: Branch River insulation Display Shapes.

- CAD design and assembly can create effective 3-D display shapes
- Computerized fabrication equipment
- Well suited for lower volume items
- Available in a range of strengths
- Lightweight – reduces shipping costs
- Compatible with multiple finish coatings

## **Recyclable.**

After it's life as a fabricated shape, Branch River insulation is 100% recyclable. It can be ground into granules and reincorporated into new Branch River insulation products or it can be thermally processed into a resin that's used to manufacture other new products.

## **Ready to take control? Start here.**

If you're ready to have Branch River insulation contribute to your next project, just contact your Branch River Plastics, Inc. Technical Sales Representative. They will be happy to give you design consultation, information about Branch River insulation products, pricing, and answers to all of your questions.
