Foam-Control® EPS Exterior Sheathing

Superior moisture resistance, breathability, and stable R-Value to protect your insulation integrity.

Foam-Control EPS is a cost-effective, durable, and energy efficient solution for insulated sheathing applications. It is an ideal material to stop energy loss through framing members. Foam-Control EPS is available in a range of Types and thicknesses to meet your local energy code requirements.

Advantages.

- Reduces air infiltration
- Superior water vapor permeability
- Saves energy
- Meets code requirements for R-value
- No long-term R-value loss or thermal drift
- No CFC, HCFC, HFC, or formaldehyde
- Helps eliminate wall cavity condensation

Proven to meet, or exceed, building codes.

Foam-Control EPS is manufactured to Quality Control Program standards monitored by Underwriters Laboratories Inc. and recognized by national building codes. Foam-Control EPS meets the following ASTM and industry standards and is recognized in ICC ES ESR-1006 report.

- ICC ES AC12, “Acceptance Criteria for Foam Plastic Insulation”

Stands up to the weather.

Foam-Control EPS means control, not compromise.

Foam-Control EPS insulations are engineered to give you the greatest possible control for your wall sheathing system application: from design and timelines, to materials and costs, and—ultimately—control over your results.

In the building industry, Foam-Control EPS insulations are among the most versatile, energy efficient, and cost effective insulators available, delivering extremely high, stable R-values. Depend on Foam-Control EPS to do the job.

Ready to take control? Start here.

If you’re starting to wonder how Foam-Control EPS insulation can contribute to your next project, here’s how to find out: Just contact your nearest Foam-Control EPS manufacturer. They’ll be happy to give you a design consultation, information about Foam-Control EPS insulation products, pricing, calculating insulation requirements and slope design, and the answers to all your questions.
